On behalf of the Organising Committee of the Advances in Neuroblastoma Research (ANR) meeting, we invite you to participate in this meeting, which will take place from 15-18 May 2023, Beurs van Berlage, Amsterdam, The Netherlands.

ANR2023 in Amsterdam promises to be an exciting meeting. Never before was neuroblastoma research so successful and cutting edge in cancer research. ANR2023 will highlight the breakthrough developments in structured sessions, where clinical, translational and fundamental findings will be integrated. The joint Dutch and Belgian organizers will welcome you in the iconic Beurs van Berlage, in the very heart of Amsterdam. The dazzling art deco interior of the venue offers spacious audience halls and a huge forum for networking, receptions and poster sessions. Amsterdam is a vibrant city and its largely preserved historical center ranks amongst the most beautiful of the world. Nearby historic towns in Belgium, like Ghent, Antwerp and Bruges have fabulous art musea where mediaeval beauty will help you to recover from ANR2023.

It must be understood that this letter does not represent a commitment on the part of the meeting organisers to provide any financial assistance.

Sincerely,

Sander Zikkenheimer
